Sprint Goal

Incremental Building

Definition of Done

Final tips & takeaways

CONFIGURING

SPRINT BACKLOG

SPRINT BACKLOG

- Product Goal: This is the long-term objective for the Scrum Team, describing a future state of the product to plan against.

- A plan by and for the Developers, it is composed of the Sprint Goal, the selected Product Backlog items for the Sprint, and the actionable plan for delivering the Increment.

SPRINT GOAL

Sprint Goal: The Sprint Goal is the single objective for the Sprint, providing focus and flexibility for the Developers as they work.

INCREMENTAL BULDING

Increment: An Increment is a concrete and usable stepping stone toward the Product Goal, and each new Increment is added to all previous ones.

DEFINITION OF DONE

Definition of Done: This is a formal description of the state of the Increment when it meets the required quality measures for the product, creating a shared understanding of when work is complete
